

On this continent. The blood of New England was poured out on the heights of Mount Abraham, and on many a battle field, in the war of 1756, between France and England. Considering all that she did in her infancy, and contrasting her ability now in her maturity, I do not know but she might survive the great calamity which the Senator supposes would overtake her, if South Carolina should become a rival in manufacturing.

Sir, I believe it would add considerably to the wealth and prosperity of New England, if by manufacturing or by any other means the prosperity and population of South Carolina could be increased. If you can add to her capacity of producing cotton the capacity of manufacturing it, you add to her population, and thereby to her ability to become consumers of the productions of the North. In that way you add to the prosperity of New England.

The more one is advanced, the more the other will be advanced. I have seen the cotton manufactures of Petersburg, in Virginia, sold in Boston, and even in the village in which I reside. New England merchants buy them, and New England vessels bring them to us. Why should I object to this? Why should New England object? Does it not give business to those New England people who buy and transport and sell them? Is it not the means of profit and gain to those who deal in them? I shall be very glad to see more of this kind of intercourse. My honorable friend before me (Mr Bates) bought and used last year on his farm, salt made in Ohio. It came in competition with Massachusetts salt—but what of that? The purchase, transport, and sale of it, employed many persons. It was paid for by some other New England production. And if it did exclude so much of domestic salt, it opened a market for something else which New England could furnish, and which Ohio wanted.

The Senator indulges in a prophetic spirit. He says he has no doubt that within five years the great West will join with him in repudiating this tariff policy, and advocating that of free trade, which he so zealously recommends. If we do not forget these theories and prophecies before that time, we shall probably see how far they will be realized. It is not always wise or prudent to venture upon prophecies. The honorable Senator, and those who have hitherto opposed the protective system, have not at all times found their predictions verified. But, hazardous as it is, I will venture to predict, in my turn, that if he and I shall live to the common age of man, and this policy is allowed to remain a few years undisturbed, he and I will live long enough to see, not the great West repudiating and abandoning it, but the South itself upholding and supporting it. The people of the South as they experience more and more of its beneficial effects, will become relaxed in their hostility to it, and will finally, and at no distant day, be among the firmest supporters of a system, under which they will see their country advancing in wealth, and happiness, and power. No, sir; the doctrines which the honorable Senator has advocated with so much sincerity, and so much ability, can have no permanent abiding place in the South, any more than in any other section of the country. They have grown up in this generation, and they will not survive it.

The honorable Senator has spoken several times of England as the "natural market" for Southern productions. What makes it a natural market? What is meant by the term? England is a great manufacturing nation, and has been for a long period. She was made so by the skill of her people, and the wisdom of her Government, and not from any natural causes. Cotton in this country is the production of less than half a century; and the market for it, is precisely where the enterprise, ingenuity and skill of men lead them to its manufacture. If Arkwright and the other inventors of machinery had been born in Tunis instead of Great Britain, and the Government, and the people of Tunis had been wise enough and intelligent enough to have turned these improvements to account, Tunis might have been the manufacturer of cottons for the world, and then Tunis would have been the natural market of the South. No, sir; a market for raw material is very much an artificial thing. It is where skill and capacity lead to its manufacture—where the fostering care of Government secures to the people the rewards of the labor which they employ in it. Manchester and Liverpool are no more natural markets than Lowell and Waltham, and the time may come when these latter will consume more of the products of the South than the former. But I see that I am wearying the Senate as well as myself. It was my purpose, before concluding these remarks, to examine somewhat more minutely the reply which the honorable Senator made to the arguments in favor of the policy, upon which he supposed his friends most generally rely. While he stated them briefly, and, with a single exception, perhaps, fairly, as they are used by its advocates, I must say, I did not think the honorable Senator very successful in his attempt to refute them. To restate them, and to reply to the honorable Senator's attempted refutation of them, would require more than the yet unexpired hours of this afternoon, and I shall leave it to other gentlemen, and to another occasion, regretting that I have been obliged to occupy so much of the time of the Senate, in a discussion which I regard as wholly premature.

I do not feel the slightest apprehension that the bill of the honorable Senator will become a law, or could obtain a respectable vote in either House of Congress. I do not apprehend any change in our policy, at this or the ensuing session of Congress, nor indeed until the operation of the act shall produce a redundant revenue. At the same time, I am ready to admit, that there are some clauses, some particular portions of it, that I would readily concur in modifying, if it could be done without opening the whole subject, and exposing the whole act to invasion. But if, as the Senator supposes, the operation of the act will be to give an inadequate revenue—if it plainly appear to operate so grievously—so oppressively—so unjustly on any section of the country as the honorable Senator supposes it does, I shall not be one to stand here to uphold it, when I see such disastrous consequences. No, sir, not I. But such cannot be its operation. All I ask of Congress is to allow it to be tested by experience—to refrain from arresting its progress—to cease these agitations and excitements, which always attend the discussion of topics so important to the business of the country. And as I have always said, when it has had a fair trial—when our experience is full—when the country shall be found rising from all its embarrassments—and the South itself partaking of the general prosperity—when all this is accomplished, I have no belief that any serious attempt will be made anywhere to uproot a system which has produced so much good. Public men, I know, can sometimes bring about the results they predict. If honorable gentlemen who oppose this system, continue their attacks upon it—if the public mind is to be kept in perpetual agitation—if the business of the country is to be always the sport of legislative change, and experiment, commerce may decline—the revenue may fall off, and general distress may again prevail. Such consequences, however, must not be charged to the adoption of the act of 1812. They will be the results, not of adhering to it, but of repudiating it—not of stability, but of vacillation—not of wisdom but of folly.

It is rather a laughable fact, that those gentlemen who signed a petition to the Legislature last year to abolish the license law, now vote for city officers who are in favor of licensing—while those grave and reverend men who remonstrated against the repeal, now go the whole hog, bristles and all, against licensing. How do you explain this manifest absurdity, gentlemen?

THE ZION'S ADVOCATE, at Portland, very justly complains of the treatment of ministers by Mr Pierpont, in his lectures on political anti-slavery. Zeal for party often times shuts out the light of truth and blunts the conscience.

Ambition, (says Quinduno), operates like wind on a man's stomach—it inflates and pains, without affording sustenance. The sovereign remedy is, honest industry, which promotes health, and while it increases the appetite for solid food supplies it also.

**Hannibal Hamlin and the Gag!**

We did not notice upon the first arrival of the Congress intelligence relative to the restoration of the gag rule in Congress, that any of our representatives had changed their votes and given in their adherence to this abominable rule, limiting, and in part denying the sacred right of petition. We had noticed the new born zeal of the representative from this district in the matter, and his frequent vote against the principles of the gag, in the report of the Committee on Rules, and, although, from our acquaintance with the political character of the man we did suppose that a regard to consistency might keep him upon the track, and did not therefore look carefully into the list of yeas and nays in the Washington papers upon the question of laying the report on rules on the table, thereby reviving effectually, for a time, at least, the gag in the old rules, after it had been rejected in the rules reported. Upon further examination we find, strangely enough, the name of Hannibal Hamlin published in the Globe among the yeas in favor of laying the report on the table, the effect of which, as previously stated, is to revive the gag. Thus his vote has been changed and he has stultified his furious speech and his previous votes,—turned a complete summer set, and shown his true political character. The Gazette has no thunder for this case.

The editor of the 'Democrat' has recently betrayed more than common solicitude relative to the matter in our columns. As to its misrepresentations and guesses regarding the editorial matter we do not care a fig. We have no fears that our friends, who know the labor we bestow, will not do us justice. We have been too long engaged in the editorial profession to feel the slightest uneasiness when a political opponent attempts to make his readers believe that another hand, and not our own, holds the editorial pen; indeed, we are sometimes not a little amused and flattered by this kind of notice. But we only intended to say that the boastful brag of the Democrat, that it recognizes in the article on the injustice of the Governor and Council in counting out Mr Robinson, a former correspondent of the Whig, is nothing but imbecile guessing. The writer of the article is not and never was a resident in the county of Penobscot, and never, previously to the article in question, wrote a line for the Whig. He is a man whose opinions are worthy of consideration with the public, and whose acquaintance through the press, our readers, as well as ourselves, are glad to make.

We notice with pleasure the fact stated in the Boston papers, that the Baldwin Place Baptist Society, under the charge of Rev. Baron Stow, have unanimously offered the use of their meeting house to the Unitarian Society under the pastoral care of Rev Chandler Robbins, while a new church is being erected for the latter. We think this example of holding the use of a meeting house subordinate to the principles of christian and neighborly kindness, may properly be extended, even to this city.

The Locos in Massachusetts, wishing to get up a Van Buren meeting, have found it expedient to hang out the old coat of Gen Jackson as a rallying mark. The call is styled the *Van Buren Call* and JACKSON JUBILEE! Van Buren has no light of his own, and only shines by the light he receives from the declining sun of Jacksonism. No wonder the party is split, torn, divided and disheartened at having such a man thrust upon them by the political traders.

The Philadelphia papers state that the late Nicholas Biddle has left a history of his life, which is soon to be published.

**Dreadful Steamboat Accident and Loss of Life.**

The New Orleans Bee gives an account of a distressing occurrence that took place on the 1st inst; the steamers De Soto and the Buckeye came in collision in what is called Old River, just below Atchafalaya, and that the latter boat was sunk to her hurricane deck in less than five minutes.

The Buckeye was ascending the river with upwards of 300 souls on board, white and black—of this number between 60 and 80 are estimated to have been lost.

A gentleman who was on board the De Soto describes the whole scene as heart-rending beyond description. The passengers were all asleep at the time of the accident, and such as were saved only escaped in their night clothes. Mothers rushed frantically about in search of their children—husbands in search of their wives and sisters.

At the recent special election for State Senator in New Orleans, one of the Courts issued eighteen hundred certificates of naturalization, without the forms of law and without the persons appearing in court, thus making a farce of the law of naturalization and trifling with the elective franchise. Of course, the loco candidate was elected.

In one of these yards there was a furious riot, the ballot box broken to pieces, the ballots scattered, and the Judges of election driven from their posts. Locofocoism appeared in its full bloom!

Our correspondent who inquires relative to the singular advertisement which appeared in the Gazette yesterday, is respectfully referred to the publisher of that paper as the most appropriate source of obtaining information, and the most appropriate method of administering a personal rebuke. We do not think our columns should be used for such a purpose.

The Whigs of Pennsylvania have recently held an enthusiastic State Convention at Harrisburg, and with great unanimity nominated Gen. Markle as their candidate for Governor. Union and harmony characterised all the proceedings, and the truest patriotism glowed in all hearts.

The Whigs of Gardiner have formed a Clay Club, and are making all necessary preparations for the diffusion of political intelligence preparatory to the election of Henry Clay as the next President of the United States.

From Mexico.

Arrivals at New Orleans bring intelligence that the Mexican Government has approved of the arrangement made by their Minister in London, so that all difficulties with England will be arranged. The new British Minister had not arrived. The February instalment of the indemnity to the United States has been paid.

The Hon. Gabriel Duval, formerly one of the Justices of the United States Supreme Court, died at his seat in Prince George's county, Md., on Wednesday night, 6th inst, in the 93d year of his age.

The remains of Governor Gilmer were received at Richmond on the evening of the 7th and the next day taken to Scottville. Mr G. has left a fortune of \$30,000. Mr Upshur one of \$50,000.

**Duties of Apprentices.**

The duties of apprentices, as connected with the interests of their masters, are many. It is their duty to remember that what is for the interest of their masters, is also for their own. Not that they have no interests of their own, but to insure their own, those of their masters must be first promoted. It should ever be their aim, whatever may be their occupation, so to attend to the business in which their time is spent, as to gain the good will and approbation of their masters. They should occupy their own place in the affairs of life, and refrain from meddling or prying into the affairs of others thereby showing an inquisitive disposition, which will be found far from beneficial to themselves. Many apprentices make it a practice to do everything that they can to vex their masters, but they will find that nothing is gained by so doing. Be careful and do every thing as if it were for yourself. Never waste or destroy any thing of your master's, but be on the watch that nothing may be destroyed by others, which may be prevented. Strive to attend to the least wish of your master.

When you commence anything do not leave it unfinished if circumstances will admit of your completing it. When sent on any business remember that the time is not your own, but that of your master, and that you should not loiter, on the way, or stop for any length of time to converse with a friend or associate whom you may happen to meet. Attend to business in business hours. Leave not the service of your master, even if you should think you have just cause for so doing; upon more mature reflection you will discover that what you thought a sufficient cause, was one of your own conceit, and without the shadow of reality. If you would prosper in after life, do not leave him, even if you have to endure some hardships or work an hour more in a day than you should wish. Never presume to take any thing, however small, to which you have not an undoubted right—it will imperceptibly gain on you until you are confirmed in thievish habits, and are turned over to the mercies of an unfeeling world, without friends, and without a character to sustain you throughout life. Whatever may be your duties to your master, perform them faithfully and you will be rewarded, if in no other way, by the consciousness of having done your duty.

APPRENTICE.

**CONGRESS.**

Washington, March 8.

The Senate did not sit to-day.

The Tariff. In the House Mr McKay of the Committee of Ways and Means, made a report on the bill modifying the Tariff Laws, and moved that it be printed together with the accompanying tables. The bill and report were committed to the Committee of the whole on the State of the Union.

The House spent the day chiefly in the consideration of private bills.

The debate on the Rhode Island question—for it has been made a question—is likely now to take the place of the 21st rule for the morning hour during the session. The question is whether Congress can interfere with the regulations of a sovereign State? Whether the power of Congress does not stop when they see that a State has a republican form of Government?

Our thanks are due to Mr Jerome, of Winslow & Co's Express for papers received last evening.

We should like to have a short interview with "Misellus."

**TIMBER LAND FOR SALE.**

THE Subscriber offers for sale, on good terms, and at a low price, about one sixth part of Township No 7, in the 3d Range north of the Bingham purchase.

Said Tract was set off by Commissioners appointed in Sept. 1841.

There is quite a quantity of Timber on one part of it, and the other part is said to be first rate settling land.

It is well situated and well watered. The Lumber always sure to come the first season.

The Madagascars and its branches, Mud Brook and Meadow Brook, good running streams, (which empty into the Mattawankeag) all run into different parts of the Township, and afford a good opportunity for the lumber operator to get his lumber to market early in the season. **SAW FACTORY**  
**IN THE STATE.**

**M. SCHWARTZ,**  
**Saw Manufacturer,**  
O. L. GLIDDEN'S NEW BLOCK,  
Exchange-Street, BANGOR.  
THE Stock now on hand at this Establishment  
is worthy the attention of the public. The  
facilities for manufacturing, the possession of suit-  
able machinery, the employment of accomplished  
men, the advantage of a thorough acquaint-  
ance with the business and of giving his personal  
attention to the manufacture of SAWS, M.  
Schwartz is enabled to produce Saws of great ex-  
cellence, and of every desirable variety, and at the  
lowest prices.

It is only necessary for those who desire a good  
Saw to call and test the Saws made at this estab-

**DR. M'MUNN'S**  
**CELEBRATED**  
**ELIXIR OF OPIUM.**  
THIS is a new Chemical preparation, which  
contains ALL the valuable qualities of OPI-  
um, and consequently, produces all its sedative  
and anodyne effects. The Elixer being divested  
of the noxious and deleterious principles of the  
opium, does not destroy the appetite, nor produce  
nausea, or any of the effects of the opium, nor  
produce the stomach, Vomiting, Headache, or  
distention of the Bowels; hence its high superi-  
ority to Laudanum, Paregoric, and every other  
of opiate.

This Elixir of Opium is therefore especially  
valuable to those cases in which Laudanum Para-  
morphine, Black Drop, &c., cannot be taken  
without being followed by those ill effects which  
are so liable to produce.

**DR. TAYLOR'S BALSAM OF  
LIVERWORT.**  
**PRICE REDUCED.**

DR. TAYLOR'S Balsam of Liverwort, from  
375 Bowery, New York—for the cure of  
Coughs, Colds, Catarrhs, Asthma, Soreness of the  
Chest, Pain in the side and Breast, raising of  
Blood, Liver complaint, Bronchitis, and all those  
affections of Throat and Lungs which are a source  
of so much suffering and unrefreshed, so often ter-  
minate in Consumption—this remedy is highly and  
justly distinguished. It is purely vegetable, mild  
and gentle in its effects upon the system, and can  
be taken in the most delicate cases, with safety as  
well as utility. Physicians, aware of its medicinal  
properties, and witnessing its effects even in ex-  
treme and in some instances apparently almost hope-  
less cases, often prescribe it in their practice, both  
as a palliative and a remedy, and with the Medical  
Faculty generally it has met with great approbation.

**CONSUMPTION.**—The following remarks were taken  
from the last number of the Medical Magazine:  
"The surprising effect produced by the genuine  
Dr. Taylor's Balsam of Liverwort, made at 375  
Bowery, in consumptive cases, cannot fail exciting  
a deep and thrilling interest throughout the world.  
We have so long considered this disease (consump-  
tion) incurable, that it is difficult to credit our senses  
when we see persons, evidently consumptive,  
restored to health. Yet it is a fact of daily occur-  
rence."

Certificates from the highest and most respecta-  
ble sources, or persons who have been either  
greatly relieved by it, or entirely recovered from  
affections of the Lungs and Liver, could be furnished  
in abundance, but we insert only the following  
**CERTIFICATE.**

**Liver Complaint and General Debility.** I was given  
up by two physicians, and told to prepare for death.  
I was so weak I could not raise my hand to my  
head. I was in this low state, when a friend  
sent me a bottle of Dr. Taylor's Balsam of Liver-  
wort, from 375 Bowery, and before I had used up  
the bottle, I was able to sit up in bed. By the fur-  
ther use I have completely regained my health.  
GEO. WELLS, 23 John-st.

For a common cold and cough, this is one of the  
very best remedies ever discovered.  
N. B. There is a spurious and counterfeit arti-  
cle abroad; therefore be careful to get the genuine,  
which is from 375 Bowery, N. Y., and is for sale by

**SANDS' SARSAPARILLA.**  
**FOR THE REMOVAL AND PERMANENT  
CURE OF ALL DISEASES ARISING  
FROM AN IMPURE STATE OF  
THE BLOOD, OR HABIT  
OF THE SYSTEM,**

**NAMELY:**  
Scrofula, or King's Evil, rheumatism,  
obstinate cutaneous eruptions, pim-  
ples, or pustules on the face, blotches,  
biles, chronic sore eyes, ring worm  
or tetter, scald head, enlargement  
and pain of the bones and joints, stub-  
born ulcers, syphilitic symptoms,  
sciatica, or lumbago, and diseases  
arising from an injudicious use of the  
mercury, ascites, or dropsy, expo-  
sure or imprudence in life. Also,  
chronic constitutional disorders will  
be removed by this preparation.

The proprietors submit to the public the follow-  
ing certificate, from a highly respectable source,  
of a cure made by using their preparation of Sarsapa-  
rilla, which cannot but have the effect of placing  
beyond all doubt the curative powers of the medi-  
cine:

New York, August 3, 1842.  
"Messrs. Sands—Gentlemen. Under a feeling  
sense of gratitude inherent to us all when suddenly  
relieved from suffering and disease, I now, as an act  
of justice due to you, and with a view of relieving  
the afflicted, make known to the world the inesti-  
mable benefit I have received from the use of your  
Sarsaparilla. In the year 1832 I sailed from Eng-  
land in a vessel bound for Quebec, and while on the  
passage first discovered the disease which after  
proved to be a sore affliction; and truly I can say,  
"from the crown of my head to the sole of my foot  
there was no soundness in me." From the time first  
mentioned down until the present, a period of more  
than ten years, I have suffered all that human na-  
ture was capable of bearing. I have been under the  
care of the most distinguished physicians both  
in this country and in England, visited Bath, Chel-  
tenham, Bristol and Gloucester, tried various spe-  
cifics, among others a large quantity of Swain's  
Pancacea, used sulphur baths, &c. As a last resort  
I was induced to wrap myself in a tar ointment,  
keep myself secluded, shunned by all, myself also  
shunning. I was induced to believe my case a  
hopeless one.

In August last, by the advice of friends, I went  
to the New York City Hospital, but was there told  
that my case was incurable. The disease now en-  
veloped my whole body, rendering me almost help-  
less; the skin thickened and cracked, and blood and  
matter ran, and life itself became almost a burden.  
A few weeks since I was induced to use your Sarsapa-  
rilla by hearing it so highly recommended, but little  
relief. After using it a short time, I found myself  
better, and now, by using six or eight bottles, cost-  
ing me less than ten dollars, I am well. Yes, I cer-  
tainly declare to the world, that after spending  
near \$3,000 in traveling and doctoring, and suffering  
more than can be told, I was perfectly cured  
by using your invaluable preparation of Sarsaparilla,  
and I now recommend it to all similarly afflicted.  
Those wishing to know further particulars will find  
me at my residence, No. 27 Warren street, New  
York, where I shall be happy to communicate any  
thing in relation to the above cure.  
PAUL BURDOCK."

gists and Chemists, Granite Buildings, 273 Broad-  
way, corner of Chambers street, New York. And  
for sale by Druggists throughout the United States.  
Price \$1 per bottle, six bottles for \$5.

The public are respectfully requested to remem-  
ber that it is Sands' Sarsaparilla that has and is  
constantly achieving such remarkable cures of the  
most difficult class of diseases to which the human  
frame is subject, and ask for Sands' Sarsaparilla,  
and take no other.

FRAMES of all sizes and varieties. We have  
set up suitable machinery in all the branches of  
the business by which much labor is saved and the price  
of these rich and beautiful articles is greatly reduced,  
so that a fine article may now take the place of  
coarse and ill looking ones, and at as low a price.

Large and elegant O G and bevel frames, and  
small bevel frames with rich mahogany veneer are  
manufactured in such quantities that we are pre-  
pared to answer, at short notice, all orders at  
wholesale.

**NEW PRINCIPLES OF PURGATION.  
CORNARO'S  
Purifying and Preserving  
PILLS.**

THE American public has for a long time been  
the victim of a false and dangerous system of  
medicine founded on the practice of LONG CON-  
TINUED AND UNRELIEVED PURGATION.  
The evils of this old system are of the most wide-  
spread and alarming character. They have reach-  
ed through every vein and artery of our nation. In  
every city, and village, and hamlet—in every  
State and Territory of our vast Republic, will be  
found those who have suffered, or who are still suf-  
fering from the injurious effects of this old system,  
of whose practical utility the disease, decay, and  
utter prostration of those who test it furnish the  
most condemning proofs!

**COMMON DRASTIC PURGATION**

Scours out the system by the most improper and  
violent means, and then leave it, weak, low, feeble  
debilitated, to regain its strength as best it may.—  
Sometimes the consequences of this old Purgative  
practice are worse than mere Debility. Inflammation  
of the bowels, Slow Fever, Bloody Piles, and  
other horrible disorders are produced, simply from  
the want of some enlivening and preserving power  
in the medicine employed. Sometimes the diges-  
tive organs are deeply and permanently injured by  
this coarse and unphilosophical practice, leaving the  
patient AN INVALID FOR LIFE.

The alarming evils and absurdities of the old system  
of Purgation, have led to the introduction of a new  
Life-giving Medicine, called CORNARO'S PURI-  
FYING AND PRESERVING PILLS, which are  
established on this new and only true principle of  
Purgation, viz:

**NO PURGATION WITHOUT IMMEDIATE  
RESTORATION.**

The use of this admirable Purgative remedy  
strikes a death blow to that abominable system,  
which by continually evacuating the bowels with-  
out any conservative or saving power, so dreadfully  
and fearfully prostrates and injures the unhappy pa-  
tient. These Purifying and Preserving Pills are  
believed to constitute the perfection of medicine,  
being a UNIVERSAL VEGETABLE PURGA-  
TIVE, containing two great remedies combined,  
viz: One remedy to PURIFY FROM CORRUPTI-  
TION, and another to PRESERVE FROM INJURY  
AND DECAY.

And for the purpose of attaining the highest de-  
gree of purity in the preparation of these Pills, Dr  
Bradlee has, at a vast expenditure of time and  
money, invented and patented at Washington, a  
chemical and philosophical apparatus for distilling  
and refining vegetable extracts, called

**THE SEVEN-FOLD FURNACE.**

A powerful and novel machine—having Seven Fires  
and Seven Alembics, with distilling, condensing,  
and evaporating fixtures of a new and ingenious  
contrivance, capable of obtaining more than seven  
times the ordinary purity of any vegetable extract  
heretofore used in compounding medicine. The  
Balsamic and Preserving power of these Pills is  
also, by this invention, highly purified and refined,  
and so mingled with the operative medicine, that it  
repairs all the injuries created by Purgation as soon  
as they are caused, and strongly fortifies the sys-  
tem against future corruption and decay.

Let the public be no longer deceived by the ad-  
vertisements of the "one remedy" doctors, who show  
their entire ignorance of the organic laws of the hu-  
man system by supposing that a medicine which  
purges merely, without renovating or preserving, can  
be a perfect remedy. For it is a fixed and immuta-  
ble law of our being that there should be, in no case,  
Purgation without immediate Restoration; and hence  
it follows, and is proved to demonstration, that all  
Purgatives which DO NOT possess a saving and  
preserving power, are injurious and injurious only—  
and possess NOT ONE REDEEMING QUALITY.

The whole theory of common drastic Purgation is  
based upon unnatural and absurd laws, and they who  
follow it fall victims to their own folly, and too late  
repeat their temerity.

**BEWARE OF UNRELIEVED PURGA-  
TION! Purge and Preserve, or do not attempt to  
Purge at all.**

The celebrated PURIFYING AND PRE-  
SERVING PILLS, purify the body from corruption  
and preserve it from injury and decay by a single  
operation. They are a Universal Vegetable Pur-  
gative, of sovereign use in all diseases of the human  
system in which purgation is required, particularly  
in Jaundice, Indigestion, Dyspepsia, Eruptions of the  
Skin, Scrofula, Piles, Costiveness, Bilious Disorders,  
Liver Complaint, Fevers, Nervous Disorders, Inward

**Dr. D. Jayne's  
FAMILY MEDICINES.**

**JAYNE'S EXPECTORANT.**

THIS invaluable medicine is daily effecting some of  
the most astonishing and wonderful cures that have  
ever been known. All who have used it for Asthma,  
Coughs, Spitting of Blood, Whooping Cough, Croup or  
Hives, Consumption, Chronic Pleurisy, Hoarseness, Pain  
and Soreness of the Throat, Difficulty of Breathing, and  
every other disease of the LUNGS and BREAST, can  
do at once to its usefulness. BRONCHITIS, a dis-  
ease which is annually sweeping thousands upon thou-  
sands to a premature grave, under the mistaken name of  
CONSUMPTION, is always cured by it. The usual  
symptoms of this disease, Brouchitis, are Cough, Sore-  
ness of the Lungs or Throat, Hoarseness, Difficulty  
of Breathing, Asthma, Hectic Fever, a Spitting up of  
Phlegm or Matter, and sometimes Blood. It is an in-  
flammation of the fine skin which lines the inside of the  
whole of the wind tubes or air vessels, which run thro-  
out every part of the Lungs. The Expectorant immedi-  
ately suppresses the Cough, Pain, Inflammation, Fever and  
Difficulty of Breathing, and produces a free and easy  
expectoration, and a cure is soon effected.

It always cures ASTHMA. Two or three large doses  
will cure the CROUP, or HIVES of children, in from 15  
minutes to an hour's time. It immediately subdues the  
violence of WHOOPING COUGH, and effects a speedy  
cure. Hundreds who have been given up by their phy-  
sicians as incurable with CONSUMPTION, have been  
restored to perfect health by it.

If this Expectorant be given in the commencement of  
PLEURISY, INFLAMMATION OF THE LUNGS, or  
in acute RHEUMATISM, in doses sufficiently large, so  
as to cause a little nausea for some time, going to bed  
and covering up warm; it will produce perspiration, and  
subdue these affections at once.  
PRICE \$1.00.

**Tonic Vermifuge.**

**WORMS IN CHILDREN.** Of all diseases to which  
children are exposed, none are so fatal to them as  
Worms. Unfortunately, children are seldom free from  
them, and as they imitate the symptoms of almost every  
other complaint, they often produce alarming effects  
without being suspected. They are not only a cause of  
disease themselves, but by their irritation aggravate all  
other diseases, wandering from one part of the body to  
another, winding themselves up into large balls, and ob-  
structing the bowels, and frequently the throat, causing  
convulsions, and too often death. The desired remedy  
will be found in Dr. JAYNE'S TONIC VERMIFUGE,  
which will very soon destroy the worms, and invigorate  
the powers of digestion so as to prevent a return of  
them. PRICE 50 cents.

**JAYNE'S CARMINATIVE BALSAM.**

This is one of the most efficient, pleasant and safe  
compositions ever offered to the public, for the cure of  
the various derangements of the Stomach and Bowels,  
and the only article worthy of the least confidence for  
curing CHOLERA INFANTUM or SUMMER COM-  
PLAINT; and in the above and following diseases, it  
really acts like a charm, viz:  
Dysentery, Diarrhoea or Looseness, Cholera Morbus,  
Summer Complaint, Cholera Griping Pain, Sour Stomach,  
Sick and Nervous Headache, Heartburn, Water-brash,  
Sore Throat, Sickness of the Stomach, Vomiting, Spitting up  
of food after eating, and also where it passes through  
the body unchanged. Want of Appetite, Restlessness  
and inability to Sleep, Wind in the Stomach and Bow-  
els, Hysterics, Cramp, Nervous Tremors and Twitch-  
ings, Sea Sickness, Paintings, Melancholy and Lowness  
of Spirits, Fretting and Crying of Infants, and for all  
Bowel Affections and Nervous Diseases.  
PRICE 50 cents.

**Hair Tonic.**

**NO EXCUSE FOR A BALD HEAD.** Since the im-  
portant discovery of Dr. JAYNE'S HAIR TONIC, every  
one may, if they choose, preserve their hair from falling  
off, or if already bald, may, with certainty, have their  
hair restored again by a faithful and persevering appli-  
cation of this valuable HAIR TONIC.  
Please to read without prejudice the following com-  
munication, which, in addition to hundreds of others  
equally respectable, should remove the doubts of every  
reasonable person of the uniform and singular efficacy  
of JAYNE'S HAIR TONIC.

HAMILTON, Feb. 15, 1840.

Dr. D. Jayne—Dear Sir: I cannot say my hair is re-  
stored, but I can say that it appears to be in as rapid a  
process of restoration as could reasonably be expected.  
I had not finished the first bottle due, before a decided  
change was manifest over the bald part of the head, to  
which it was applied. A new growth of fine glossy  
hair, much like that of an infant, appeared, and has  
continued to increase, and I have had it cut two or three  
times. I have recently commenced upon the third bot-  
tle, but have been a good deal irregular in the use of  
the Tonic from the first, and from this cause I apprehend  
the effect is at present less than it otherwise would  
have been.

I began the use of the Tonic with little or no faith  
that it would ever be successful on my head, though I  
felt entire confidence in your statements of what it had  
done for others; and I was as much surprised as de-  
lighted when I saw the effect. You recollect the ap-  
pearance of my head when in your office. I assure you  
the hair has been nearly cut quite an inch long at  
the times I have had it cut, on those parts which were  
nearly destitute of any when you saw me. It was, how-  
ever, very fine, though quite thick. I am flushed with  
sanguine hope of final success, in the diligent use of  
your Tonic, which, amidst all the hair bunnings which  
have been advertised in the papers, I am constrained to  
believe is what it claims to be, and that it will make  
the hair grow, and no mistake, at least on some heads.

**Jayne's Sanative Pills.**

These Pills are an excellent, mild and safe purge at  
all times, and are exceedingly useful in Dyspepsia and  
obstructions of the Liver. Persons taking them can eat  
and drink as usual, without fear of injury; and, what is  
of infinite advantage, making the use of mercurial prepa-  
rations, so frequently used in derangements of the  
stomach and liver, unnecessary.

These Pills may be taken at all times, and are benefi-  
cial nearly in all cases. They have long been a fa-  
vorite power of the property for all obstructions of  
the Liver, Spleen, Kidney, Uterus, and all other organs  
of the body—Inflammatory, Intermittent, Remittent,  
Bilious, and every other form of Fever—Jaundice and  
Liver Complaint. For Dyspepsia they are really an in-  
valuable article, gradually changing the vitiated secre-  
tions of the stomach, and producing healthy action in  
that important organ. They are very valuable in dis-  
eases of the Skin, and for what is commonly called "im-  
purity of the blood," also for Female Complaints, Con-  
stiveness, &c., &c.—and in fact every disease where an  
Aperient, Alterative or Purgative medicine is required.

Four fifths of the numerous and distressing cases  
of DYSPEPSIA POSITIVELY CAN BE CURED BY A  
persevering use of this valuable SANATIVE.

They are expressly prepared to be used as an Aperient  
and for the removal of obstructions in the Liver,  
which are often attendant on some of the diseases of  
the Breat.

**WRIGHT'S  
Indian Vegetable Pills.**  
The True Character of Counterfeiters and  
Sellers of Counterfeit Medicines.  
NO Medicine has been introduced to the  
American Public, whose virtues have been  
more cheerfully and universally acknowledged by  
its vast popularity, and extensive circulation, than  
"WRIGHT'S INDIAN VEGETABLE  
PILLS."  
To descant upon their various virtues at this late  
season would be a work of supererogation, since  
few who peruse this article will be found unac-  
quainted with the widely circulated proofs of the  
excellence of the Medicine, to which many  
will be ready to add the testimonials of their own  
experience. But if further proof were needed of  
the value of the remedy it might be found in the  
fact that no Medicine in the market has been so  
shamelessly and repeatedly counterfeited. Igno-  
rantly, enviously, avariciously, and unprincipledly  
have in different places, manufactured a spurious  
pill, bearing a superficial resemblance to the true  
article, but composed either of impotent or deleter-  
ious ingredients, which they have sought to foist  
upon the public as the veritable

**Indian Vegetable Pills.**

These fraudulent Swindlers could never pass off  
their vile wares upon the public but for the con-  
stant vigilance and assistance of self-styled respectable  
Druggists, who, for the sake of a little "filthy  
lucre," lend themselves to the monstrous and un-  
hallowed system of imposition. The counterfeiter  
of a popular medicine is more criminal than a coun-  
terfeiter of current money. The injuries done by  
the latter sink to nothing in comparison with those  
inflicted upon society by the former. We might  
paint him wringing the mite from the hard hand  
of invalid penny which is extended for the boon of  
health, and receives instead the vile drug that pro-  
tracts and aggravates disease, or to view it in its  
best aspect, suffers it to rage unchecked. How  
melancholy is the reflection that thousands may  
have been hurried to the grave by having a coun-  
terfeit substituted for the true Medicine; who but  
for the venal fraud might now be living in high  
health, the delight and hope of the social circle.—  
All classes are interested in putting down these  
vile Counterfeiters.

Let the Stores where they are sold

be marked and Shunned.

Let the virtuous indignation of the community  
administer to all concerned in these unfair prac-  
tices a general and withering rebuke.
